

Through a unique partnership between Leon County Schools and the Challenger Learning Center of Tallahassee, students will get an “out-of-this-world” experience for the 2023-2024 school year!

Pick from three different options for your classes:

### Ultimate Classroom Space Mission Simulator Experience (Grades 5-8)

**In-school visit during Fall Semester**

CLC's Science Communicators and Flight Directors visits your classroom to prepare your students for their upcoming spaceflight with a NASA-inspired classroom activity that also meets your curriculum standards.

**In-school visit during Winter Semester**

CLC's Science Communicator visits your classroom with a live science demonstration to prepare your astronauts for life in space.

**Field Trip to Challenger Center in 2024**

Your students arrive to the Challenger Center for their Space Mission Simulation, where they take over real jobs in Mission Control and the Spacecraft and must complete a real-life inspired mission to the Moon. Also includes an IMAX movie!

**Free for Leon County Schools\*** or \$650 per class for non-LCS schools

### Engineering Challenge Team Competition Experience (Grades 4-8)

**In-school visit during Fall Semester**

CLC's Science Communicators and STEAM Educators visits your classroom to prepare your students for their upcoming engineering challenge with a NASA-inspired classroom activity that also meets your curriculum standards.

**In-school visit during Winter Semester**

CLC's Science Communicator visits your classroom with a live science demonstration to prepare your students for their engineering challenge.

**Field Trip to Challenger Center**

Your students arrive to the Challenger Center for their engineering challenge, where they use their skills to solve a real-life problem and watch an IMAX movie!  
**Options:** Build and create your own take-home pair of shoes! -or- Program a robot to complete an obstacle course!

**Free for Leon County Schools\*** or \$550 per class for non-LCS schools

### Challenger Visits In-School Program (Grades K-12)

CLC's Education Staff visits your classroom with a NASA-inspired activity based on your curriculum. Can include any standard or topic on your curriculum, from Earth Science to Space Science to Chemistry to Life Science and more! Includes one 45 minute - 1hr activity per week for three weeks.

**Free for Leon County Schools** or \$300 per class for non-LCS schools

To book your program, contact Marvetta Castle at [mcastle@challengertlh.com](mailto:mcastle@challengertlh.com) or (850) 645-7777. For questions about curriculum, contact William Figueroa at [figueroaw@leonschools.net](mailto:figueroaw@leonschools.net) or (850) 645-7773

\*Lunch not included

## Classroom Visits and Field Trips

- ✓ Standards-aligned classroom visits
- ✓ Engaging hands-on activities with your students
- ✓ **Offered at no charge to your Leon County public school\***

### Option 1

#### Ultimate Classroom

2 classroom visits and a field trip

The ultimate Challenger Center experience with a Space Mission Simulation!

### Option 2

#### Engineering Challenge

2 classroom visits and a field trip

Learn science concepts by joining an engineering challenge to solve a real-life problem!

### Option 3

#### Challenger Classroom

Classroom visit

We take over your classroom!

**Learn more about each one in the next page!**
